1. Establish a strategy and business model to promote long-term value for shareholders

AdEPT was originally established as a fixed line telecom provider but is diversifying its product range to become one of the UK's leading independent unified communications and IT service providers with a mission of "Unifying Technology, Inspiring People".

This transition has been largely through development of the organic sales focus combined with strategic acquisition of earnings enhancing business.

The Company is focused on maintaining a high proportion of recurring revenue and margin, a low operating cost base with a high proportion of EBITDA converting to operating free cash flow. This high free cash flow is to be re-invested into the company via strategic earnings enhancing acquisitions combined with returns to shareholders via dividends.

Our strategy focuses on four key areas:

1. Enabling the Company to expand its product range
2. Investing in customer retention
3. Increasing public sector presence by leveraging frameworks
4. Identifying strategic acquisition opportunities

Key challenges in the execution of the strategy of the Group are the following risk factors:

- Credit risk
- Competitor risk
- Acquisition integration
- Capital risk management
- Liquidity risk
- Retention of the Board and senior management

All of these are covered in greater detail later in this statement.

2. Understanding and meeting shareholders needs and expectations

The Executive Directors have regular dialogue with all major shareholders of the Company and prospective new shareholders through investor meetings and webinars. In addition, the Executive Directors attend investor shows and produce audio and video updates on a regular basis, copies of which can be found on the investor relations pages of the Company website.

The feedback received by the Board from shareholders is that these audio and video updates provide a time and cost-effective method of getting updates on the strategy and financial performance of the Company.

The Board regularly undertakes reviews with major shareholders to understand the drivers behind their investment decisions. The aim is to try and communicate the strategy of the Company to those shareholders and demonstrate how it expects to deliver long-term value.

The Company has a shareholder benefit scheme for any shareholders with 250 or more shares. The details of the scheme are included on the Company website and provides an open path of communication with shareholders.

Any queries in relation to shareholder liaison can be directed to either:

3. Take into account wider stakeholder and social responsibilities and their implications for long-term success

The Board has identified the range of stakeholders on which the success of the Company is dependent. The Executive Board is involved in all discussions with key stakeholders to ensure that their needs, interest and expectations are both understood and aligned with those of the Company.

Employee involvement

The Directors believe that the employees of the Company are one of its most important assets and the continued and sustained development of the Company relies on its ability to retain and attract employees of a high standard. AdEPT is proud to have a high number of long-serving employees with more than 5 years' service.

The AdEPT equal opportunities policy ensures that all job applicants and employees are treated fairly and without favour or prejudice. We are committed to applying this policy throughout all areas of employment, recruitment and selection, training, development and promotion.

Employees are regularly informed of matters concerning their interest and the financial factors affecting the Company. The Company uses management forums and employee newsletters to communicate matters as well as team and individual meetings.

Environmental commitment

AdEPT is committed to promoting sustainability. Concern for the environment and promoting a broader sustainability agenda are integral to AdEPT's professional activities and the management of the organisation.

We aim to follow and to promote good sustainability practice, to carry out our operations in a way which manages and minimises any adverse environmental impacts from our activities and to help our clients and partners to do the same.

Our sustainability policy is based upon the principles of continual and effective improvement on environmental performance. This policy is communicated to our employees, associates, suppliers, clients and other parties to ensure that all parties are fully aware of our sustainability policy and are committed to implementing and improving it.

The sustainability policy is reviewed annually, and we are committed to continually striving to improve our sustainability performance within the guidelines of our organisation.

The Company encourages its staff to use public transport to attend meetings and site visits whenever possible and minimise sole occupancy travel whenever practical. The Company is committed to encouraging the use of teleconferencing or video-conferencing, and efficient timing of meetings to avoid unnecessary journeys. In addition, the Company supports alternative working arrangement, including home working.

AdEPT encourages the reuse or recycling of office waste, including paper, packaging, computer supplies and redundant equipment. Wherever possible AdEPT ensures that waste materials are disposed of in an environmentally safe manners and in accordance with regulations. AdEPT is committed to reducing the energy consumptions of office equipment by purchasing energy efficient equipment and good housekeeping.

4. Embed effective risk management, considering both opportunities and threats, throughout the organisation

In addition to its other roles and responsibilities the Audit Committee are responsible to the Board for ensuring that procedures are in place, and are being effectively implemented to identify, evaluate and manage the significant risks faced by the Group. The Audit Committee review the risks and controls on a regular basis.

The following principle risks, and controls to mitigate them, have been identified:

Liquidity risk

The Group seeks to manage financial risk by ensuring sufficient liquidity is available to meet foreseeable needs and to invest cash assets safely and profitably. External funding facilities are managed to ensure that both short-term and longer-term funding is available to provide short-term flexibility whilst providing sufficient funding to the Group's forecast working capital requirements.

Credit risk

The Group extends credit of various durations to customers depending on customer credit worthiness and industry custom and practice for the product or service. In the event that a customer proves unable to meet payments when they fall due, the Group will suffer adverse consequences.

To manage this, the Group continually monitors credit terms to ensure that no single customer is granted credit inappropriate to its credit risk. Additionally, a large proportion of our customer receipts are collected by monthly direct debit. The risk is further reduced by the customer base being spread across a wide variety of industry and service sectors.

Currency risk

The Group's operations are handled almost entirely in sterling.

Capital risk management

The Group is subject to the risk that its capital structure will not be sufficient to support the growth of the business. The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. There were no changes to the Group's approach to capital management during the year.

As part of the banking arrangements, the Group is required to comply with certain covenants, including net debt to adjusted EBITDA and interest cover.

In order to maintain or adjust the capital structure, the Company may return capital to shareholders, issue new shares or sell assets (customer bases/relationships) to reduce debt.

Competitor risk

The Group operates in a highly competitive market with rapidly changing product and pricing innovations. We are subject to the threat of our competitors launching new products in our markets (including updating product lines) before we make corresponding updates and developments to our own product range.

This could render our products and services out-of-date and could result in loss of market share. To reduce this risk, we undertake new product development and maintain strong supplier relationships to ensure that we have products at various stages of the life cycle.

Competitor risk also manifests itself in price pressures which are usually experienced in more mature markets. This results not only in downward pressure on our gross margins but also in the risk that our products are not considered to represent value for money. The Group therefore monitors market prices on an ongoing basis.

Acquisition integration execution risk

The Group has set out that its strategy includes the acquisition of businesses where they are earnings enhancing. The Board acknowledges that there is a risk of operational disturbance in the course of integrating the acquired businesses with existing operations. The Group mitigates this risk by careful planning and rigorous due diligence.

Internal control and risk assessment

The directors are responsible for risk assessment and systems of internal control. Although no system of internal control can provide absolute assurance against material misstatement or loss, the Group's systems are designed to provide the directors with reasonable assurance that problems are identified on a timely basis and dealt with appropriately. The key features of the Group's system of internal control are:

- a management structure with clearly defined responsibilities and authority limits;
- a comprehensive system of reporting financial results to the Board.

Towards the end of each financial year, detailed budgets are prepared for the following year. Re-forecasts are prepared on a regular basis during the year, for example reflecting an additional acquisition. The actual results are compared to budget and/or re-forecasts as appropriate;

- regular review of staff skills and identifying and providing training;
- regular review of operational performance by the executive directors, including sales and customer service;
- appraisal and authorisation of capital expenditure;
- approval of significant contracts; and
- review of the risks faced by the Group.

5. Maintain the board as a well-functioning, balanced team led by the chair

The Board

Executive directors

Phil Race (Chief Executive), John Swaite (Finance Director) and Andy Lovett (COO)

Non-executive directors

Ian Fishwick (Chairman), Roger Wilson, Craig Wilson and Richard Bligh

The Board

The Board comprises three executive directors and four non-executive directors.

The Board meets regularly throughout the year and has a formal schedule of matters specifically reserved for its decision. This schedule is included in the corporate governance document available on the Group's website at www.adept.co.uk under the investor relations section.

If required, the directors are entitled to take independent legal advice and, if the Board is informed in advance, the cost of the advice will be reimbursed by the Group. The Company secretary's services are available to all members of the Board.

The directors are required to retire on a 3-year rotational basis, and they are required to stand for re-appointment by shareholders at the AGM.

The Quoted Companies Alliance's Corporate Governance Guidelines for AIM companies recommend that an AIM company should have at least two independent non-executive directors.

The Board considers that two of the existing non-executive directors, Roger Wilson and Ian Fishwick, are not independent for the purposes of these guidelines due to their level of shareholdings in the Company and, therefore, that Craig Wilson and Richard Bligh are the required independent non-executive Directors.

This follows the QCA guidelines.

The composition of the board is regularly reviewed with regard to the ongoing requirements of the Company in the medium to long-term.

7. Evaluate board performance based on clear and relevant objectives, seeking continuous improvement

The Remuneration and Nominations Committee is appointed by the Board and comprises only non-executive directors.

The remuneration committee is responsible for;

- a) **Remunerations** – In respect of Remunerations this committee is responsible for determining and agreeing with the Board the framework or broad policy for the remuneration of the executive directors of AdEPT and the senior management team; defined as any employee with a salary of £100,000 per annum or greater. Further, the Remunerations Committee shall agree the policy for authorising claims for expenses from the Chief Executive and Chairman and will be exclusively responsible for selecting, appointing and instructing any remuneration consultants who advise the committee.
- b) **Nominations** – In respect of Nominations this committee is responsible for evaluating the board of directors of AdEPT and examining the skills and characteristics needed in board candidates. The nomination committee will also identify suitable candidates for various director positions. Other responsibilities for this committee may include reviewing and changing corporate governance policies.

The committee meets regularly to determine, on behalf of the Board, the framework of executive remuneration. The performance of the Executive Directors is measured against the internal budget for revenue, EBITDA and cash/net debt, with a performance related bonus for exceeding the internal budget targets.

The members of this committee do not have any conflicts from cross-directorships that relate to the business of the committee. The members do not have any day- to-day involvement in the running of the Group.

The Remuneration and Nominations Committee's remit is to measure the performance of, and determine remuneration policy relating to directors and senior employees. To support this responsibility, it has access to professional and other advice external to the Group. Taking the performance factors into account, it then makes recommendations to the Board.

To assist the work of the committee, the views of the chief executive officer are also invited where appropriate. However, he does not participate in any decision related to his own remuneration.

The Group is committed to the governing objective of maximising shareholder value over time. Each year the remuneration framework and the packages of the directors are reviewed to ensure they continue to achieve this objective.

The Group operates in large competitive markets with areas of significant growth potential. The Group's executive director remuneration policy is designed to attract and retain directors of the calibre required to maintain the Group's position in its marketplace. This is maintained through the use of bonus and share option schemes, as follows:

Bonus

A cash bonus designed to incentivise specific short-term goals and objectives, both financial and non-financial. Goals and objectives are set for the executive director team as a whole with a significant weight being put on meeting and exceeding the annual budget in terms of revenue, EBITDA and cash/net debt targets. Executive directors' bonuses are set at between 10% and 20% of base salary.

Share options

To encourage and reward delivery of the Company's long-term strategic objectives and provide alignment with shareholders using share- based incentives. The remuneration committee applies a policy of issuing share options up to 1% each year of the issued share capital at the date of the previous year end.

All share-based incentives offered to executive directors have minimum 3-year retention schedules. Share option grants made are at market price. Vesting is subject to continuing employment.

Currently the Non-Executive Directors do not formally get appraised and they do not formally appraise the Chairman's performance. However, the performance evaluation of the committees on which the Non-Executive Directors sit is deemed appropriate for the evaluation of their performance.
